Description : The Museum of the Future is an architectural and engineering marvel. It confidently straddles the past and the future, applying advanced technology to traditional artforms. The building ‘speaks Arabic’: its facade is a canvas for the poetry of His Highness Sheikh Mohammed Bin Rashid Al Maktoum rendered in the calligraphy of Mattar bin Lahej.

The building’s form is futuristic: it opens a new path away from the highrise towers that dominate skylines everywhere. Its form is symbolic: The circular building represents humanity; the green mound it sits atop represents the earth; the void represents the unknown future.

The Museum builds on the visionary culture that has transformed the UAE into one of the world’s most advanced nations in less than 50 years. We are a showcase for the spirit of courage, optimism and innovation that propels Dubai forward.

Like our home city, the Museum is a place of tolerance, inviting varied cultural, philosophical, social and spiritual outlooks. Our imagined futures are rooted in the values of the UAE and the Arab world.
